A man in a dark sweater and blue trousers is using a long-reach, black, telescopic device to inspect a wall-mounted device in a meeting room. The room has a white wall, a ceiling light fixture, and a potted plant. In the foreground, the backs of several people sitting in a meeting room are visible, along with a large screen displaying a green logo.

Esoteric, part of Mitie Intelligence Services

Part of Mite Intelligence Services (MIS), we deliver counterespionage and risk assurance services as part of a converged security solution. Our capabilities include Technical Surveillance Countermeasures (TSCM), Risk Assurance, Insider Threat and Counter-Espionage (TRAICE).

Since 1998, we have worked with clients to deliver high-value, proportionate and discreet protection against espionage and eavesdropping threats. As part of Mitie Intelligence Services, we are now uniquely positioned to provide a fully integrated and holistic security offering.

Our in-house team of Subject Matter Experts, supported by our Mitie acquisition, delivers cutting-edge solutions that mitigate vulnerabilities and strengthen organisational resilience through a converged security approach.

Operating across a range of sectors, Esoteric has delivered projects in both private and public environments, supporting clients from FTSE-listed organisations to privately owned assets. We are widely recognised for our contributions to the counter-surveillance disciplines, and for our commitment to raising industry standards through intelligence-led insight.

We bring together a highly experienced leadership team and a disciplined operational workforce dedicated to delivering consistently exceptional service standards. All personnel are security vetted to a minimum of BS7858, and our TSCM engineers are recruited from government agency and military backgrounds, offering extensive technical expertise and deep operational experience in advanced counter-surveillance.
